

The · First · Presbyterian · Church

PORTLAND, OREGON

will dedicate its new four-manual electric organ early in June

First Presbyterian Church, Portland, Ore.

The builder is M. P. MÖLLER, the instrument the largest Church organ in the Northwest, built after specifications prepared by the builders in collaboration with Professor John Stark Evans of the University of Oregon and Mr. William H. Barnes of Chicago.

M. P. Möller recognizes individual specificational requirements of organists and architects—offers no substitutions—

extends no excuses, but builds exactly what is wanted, in the best manner.

Every Möller Organ is custom-built. The Möller factory is the world's largest, and its mechanical equipment insures a degree of accuracy impossible in any factory less completely equipped.

The new Möller catalog is just off the press, and copies will be gladly sent on request.

Interior First Presbyterian Church, Portland, Ore.
