Descriptions:

The organ contains 1,872 pipes which are housed in an oak case finished to match the wood in the sanctuary. The raised panels are made out of quarter-sawn oak. The pipes are made of spruce, cherry and tin. The organ has slider chests with electric pull-downs. Where indicated with an (*) the chests are electro-pneumatic. The console is MIDI compatible and the stop action is electric, incorporating a combination action with 100 memory levels:
